Mr. Hamel, the proposed modification to your approval is acceptable. We may stop by in the next couple weeks to observe the work and conditions at the library, let me know if I need to make any special provisions for access to the site.

Hi Kurt,

On behalf of the University of Nebraska - Lincoln and in accordance with the EPA's February 9, 2015 PCB Cleanup and Risk-Based Disposal Approval for the above-mentioned site, please find attached a letter, which provides a modification to the planned work. Basically, an additional window bank has been added to the scope of the removal work. The specific work practices and disposal for these windows will be the same as those subject to the Approval.

If you have any questions or require further information, please e-mail or call.

Thanks

Jeff
